

Quick Guide for the My Health Screener.

1. Health screen is only open 8 hours prior to the date it comes due (EVERY DAY & EVERY GAME)
2. All kids must have this completed prior to getting on the field.
3. Please help us ensure we maintain the health and safety of all of our players and keep the club open.
4. If you have a failed test, please keep your child out of practice and contact your child's coach for further guidance. Be sure to read the questions carefully.
5. **Common issues:** one child works and the other doesn't (you haven't accepted the invitation from TeamSnap for both of your kids even though you can see their schedules) or you haven't chosen your child.

Step 1: Log into your main screen on TeamSnap App

Step 2: Ensure you have the right team selected at the top using drop down menu (this will vary based on your child(ren)'s team

Step 3: From the event details click  My Health Check

Step 4: Click on the My Health Check and answer questions

Step 5: It will show cleared and a green screen when done
